

SA-TRIM1 and SA-TRIM2 Trim Kit Installation Sheet

Description

The SA-TRIM1 and SA-TRIM2 trim kits are used to semiflush mount the cabinet box (see Figure 1). The two models are described in the table below.

Model	Description
SA-TRIM1	Trim ring kit for 64 point control panels
SA-TRIM2	Trim ring kit for 127/254 point and 250/500 point control panels

Installation

Remove the 1/4-inch knockouts in the cabinet box and then attach the trim ring kit to the cabinet box as shown in Figure 2 using the hardware provided.

Note: You must attach the trim ring kit before placing the cabinet box in the wall.
